Tony & Gregg

Spoke with Chairman Argenio. I had Myra list you for the agenda on Sept 10th. You can bring the DSEIS to that meeting (do not submit anything in advance) and make a full presentation for the project. Keep in mind, many of the Board members are new and not familiar with the history of the project, so you can take that opportunity to bring everyone back to speed on the job. The Board will not take any action at the Sept 10th meeting other than to acknowledge receipt of the submittal.

We will be working on a determination as to what meeting you will be scheduled for the followup – either Sept 24th or Oct 8th.

I will be working with Dom Cordisco to outline the SEQRA procedural steps that need to be taken so we accomplish the goal correctly.

Also, RPA has an open application for the former single fam residential project, then known as Patriot Estates (NWPB 01-66). We would like you to close that application out now that there are no SFR lots involved. You can have RPA work with Myra to close that file out.

Mark
